Gazebos

At **THE FENCING FACTORY** we can offer you a natural thatch (Alang-Alang) which will enhance your lifestyle by adding character and a relaxing atmosphere.

The Balinese Thatch we provide features a 5-10° drop in temperature, has an attractive decorative internal aspect and is perfect for over BBQ's, topping the spa or relaxing next to the pool.

Our design service can provide you with a basic plan to give to your building certifier. We can design a large range of sizes. Please consult with your building certifier to be able to comply with the latest council and building regulations.

We can supply you with 100% quality timbers from our yard or have a specialized installer (see yellow box) assemble one of these stunning works of art.

To create that tropical look for your home, pub, resort, restaurant or even on the beach, you need the style and good looks of a Balinese Thatch Gazebo from **The Fencing Factory**.
